A SUPPLICATORY LETTER TO

Donald John Trump President of the United States of America

Dear Sir,

From the heartland of Ohio, our Amish Craftsmen are sitting idle, waiting for Asian tariffs to cool, but most importantly the hopeful transition to an American manufacturer.

You see, we're the USA company that revolutionized home heating in 2007 by inventing the "Amish Fireplace," a fireless, realistic flame-effect heater, encased with an heirloom-quality, solid wood mantle handcrafted by Amish craftsmen right here in your favorite states, Ohio and Pennsylvania. Over a million US households now rely on Heat Surge heaters.

Why do we need your help now?

While our Amish mantles are proudly crafted right here in the USA, the electric heating inserts have been manufactured in Asia because there is not a single manufacturer in America tooled and trained to produce these electric inserts.

How can you help?

We believe that a country as great as ours can produce these electric heating inserts with better state-of-the-art technology right here in the USA. Please, help us partner with a U.S. manufacturer while providing a simple expeditious grant from your office, free from Biden-era bureaucratic red tape which would propel us to immediate action to create new jobs right here on U.S. soil.

With your help, we will **Make America Warm Again**.

Thank you, President Trump.

Founder, Heat Surge, LLC

Rodry Napier

These are the employees who rely on their jobs at Heat Surge LLC, based in Canton, OH:

■ FLASHBACK: AMISH CRAFTSMANSHIP HEATS UP AMERICA: This is the iconic photo of Heat Surge partnering with the Amish community to build millions of portable electric fireplaces that are still keeping America warm and cozy. Now, Heat Surge is relaunching this category-smashing product. Our goal is to have every component of these magnificent Amish fireplaces made 100% in the United States of America.

OPPORTUNITY: ANY USA MANUFACTURER SEEING THIS PRESIDENTIAL PLEA WANTING TO EXPLORE PRODUCTION OF THESE HIGH-DEMAND HEATSURGE ELECTRIC FIRE-PLACE INSERTS, PLEASE CONTACT:
